

# REGIONAL DIRECTOR BIOGRAPHY

## Mandie Holloway

### South West UK & East Devon Region

Mandie is a trained teacher and has spent over thirty years in the Further Education Sector as a College Manager, working predominantly with people with learning difficulties and disabilities. Mandie qualified as a Sports and Remedial Massage Therapist in 2012 with OSSM. Mandie set up her practice in 2012 which has grown year on year offering a range of sports, remedial and holistic therapies.

Mandie's practice is located on the family farm in Dorset, where a new treatment room is under development. Mandie has always been involved in sport from sailing, athletics to squash, skiing and real tennis.

Mandie is keen to facilitate the development of a community of sports massage therapists in the South West. Her main aim through the community is to support individuals in their work, to have access to a trusted network of like-minded professionals with whom one can share experiences, and receive advice, guidance and knowledge. It is hoped that a social media page will be established alongside regional meetings and in the future professional development days.
